

Doctrinal Mastery Concentration

1. Determine how many Doctrinal Mastery scriptures you will review.
2. Have students brainstorm a list of that many random objects (tree, Sorry game piece, apple pie, football, etc) without telling them what it is for. Write them on the board.
3. Write the first Doctrinal Mastery reference on the board.
4. Have each pair/group decide which object on the board best goes with that scripture and why.
5. Poll the teams to see which object received the most votes.
6. The teams who selected the object with the highest votes gets a point.
7. Give the teams time to explain why their object choice was the best. This is the best part.
