

# Jigsaw

**This week you will study one of the assigned chapters/sections in groups** (divide students into 4 groups).

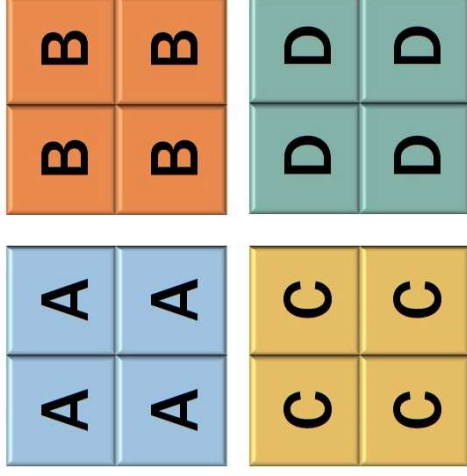

*(Use chapters/sections or groups of verses from this week's CFM/Seminary lessons)*

When you come to class, each person in your group will teach a lesson from your verses to 3 other people who didn't study the same verses.

## Here is a teaching outline you can use:

- Context: Share the 1-2 verses that were most meaningful to you from your study
- Principles: Share one or two principles you learned from your favorite verses that inspire you.
- Example: Share a personal example, a Conference story, a quote, an analogy or object lesson—Something that can help your peers understand the principle and why it's important.
- Testimony: Share when you have seen the power of this doctrine/principle in your life.
- Invitation: What do you feel God wants you to “go & do” and “strive to be” from your verses?

Round 1 – Expert Groups

Round 2 – Teaching Groups
